OVER THE YEARS

Commentaries based on cataloging over 300 sales

As consignments and commitments begin arriving for our 1983 A.N. CONVENTION SALE in San Diego in August, I am reminded of the first A.N.A. CONVENTION I attended in 1936. It was held in Minneapolis, Minnesota, the gopher state (which was reflected in the convention badge). There wasn't any bourse then and visiting and viewing proceeded at a leisurely pace. In today's hectic pace, we are sometimes prone to forget that collectors have an ongoing interest in what they seek while investors wax and wane in keeping with the vicissitudes of the economy.

In 1946 we were invited to conduct the A.N.A. CONVENTION SALE in Davenport, Iowa but declined due to the lack of sufficient time to prepare a proper catalog after being discharged from the Army. In 1977 we decided to accede to the honor and privilege of conducting the A.N.A. CONVENTION SALE in Atlanta, Georgia. We could not resist the opportunity to put into action some of the ideas and concepts we had about NUMISMATIC EDUCATION. The resulting "Five Books in One" had a number of innovative features and we are gratified that they are still being used for references. The 5,446 lot sale still remains the LARGEST A.N.A. SALE EVER HELD. We hope to include additional features in the 1983 A.N.A. CONVENTION SALE which will further NUMISMATIC EDUCATION and make it an ongoing reference work.

The market seems to have stabilized this fall and now appears to be in the beginning stages of the next rise. How long this rising trend continues and how high the prices will go is difficult to determine as yet, but we believe, based on a half century of experience in numismatics, that it will continue to the fall of 1983. Therefore we have decided to spare no effort to make the 1983 A.N.A. CONVENTION SALE the finest possible. As "Custodian Of Dreams" we hope to make the catalog worthy of the "dreams" of those who have assembled these collections.

Grading, particularly in "Morgan" dollars, still seems to be the main problem today. Strength or weakness in strike is quite important, but there has been no provision for this factor in the grading system. Hopefully, this omission will be corrected in the future.

HOW TO BID

What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

How Much To Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the descriptions in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid $500.00 on the lot and the next highest mail bid is $400.00; we start the lot bid at $425.00. If there are no bids from the floor, you will then be awarded the lot at $425.00—or if the floor bidding stops at perhaps $450.00 or $475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the $500.00, then that floor bidder will be awarded the lot.

How to Fill Out the Bid Sheet

On the Bid Sheet you will observe that there are two different column headings: Lot and Bid. When you decide on which lots you want to bid, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have circled one of the increase percentages, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF SALE.

GRADING STANDARDS

Coins: Kagin's uses strict ANA grading standards in addition to Dr. Sheldons's for the lower grades (Fair-2 & Poor-1).

MS-70 (Perfect Uncirculated): Once in a great while a perfect coin is sold.

MS-67 (Gem Uncirculated): No bag marks, hairlines, or other evidence of handling or contact with other coins.

MS-65 (Choice Uncirculated): Fully struck with only a bare minimum of minor abrasions.

MS-63 (Select Uncirculated): Nicely struck with fewer than usual bag marks, nice luster.

MS-60 (Uncirculated): Strictly uncirculated with no evidence of wear, only a moderate number of bag marks on surface.

AU-55 (Choice About Uncirculated): Bare traces of friction at the highest points.

AU-50 (About Uncirculated): Traces of wear on many of the highest points.

EF-45 (Choice Extremely Fine): Light overall wear on highest points, all design details very sharp.

EF-40 (Extremely Fine): Slightly more wear than EF-45, still with excellent overall sharpness.

VF-30 (Choice Very Fine): Light even wear on the surface, design details on the highest points lightly worn, sharp lettering and major features.

VF-20 (Very Fine): As preceding, but with moderate wear on highest parts.

F-12 (Fine): Moderate to considerable even wear.

VG-8 (Very Good): Well worn, most fine details worn nearly smooth.

G-4 (Good): Heavily worn, major designs visible, but with faintness in areas, without center detail.

AG-3 (About Good): Very heavily worn with portions of lettering, date, and legends being worn smooth, date barely readable.

Fair-2: Showing very little detail.

Poor-1: Barely recognizable as to type.

Currency:

Superb Gem CU (Superb Gem Crisp Uncirculated): A flawless note. Perfectly centered with sharp corners. Full brightness and absolutely no handling or other impairments. Wider than usual margins.

GEM CU (Gem Crisp Uncirculated): Bright and well centered. Full original crispness with no handling or aging. A virtually flawless note.

Choice CU (Choice Crisp Uncirculated): Flawless appearance. Close examination might reveal teller handling, minute pinholes, or very light aging. A note with an excess of the above mentioned defects would not be considered Choice.

CU (Crisp Uncirculated): No folds or corner creases. May have obvious aging, rounded corners, handling marks, pinholes, or other flaws that indicate mishandling. A note that does not retain full crispness or appears starched should be examined for processed or pressed-out folds.

AU (About Uncirculated): The criteria for this grade is basically the same as for Uncirculated but a note may have a single fold or several small corner creases.

EF (Extremely Fine): Two or three creases evident. The note should be bright and retain nearly full crispness.

VF (Very Fine): Notes in this grade show obvious use. May have several folds and have started to lose some of its original crispness. Light soiling due to normal handling is accepted. Heavy soiling and excessive handling or loss of crispness is not acceptable in this grade.

F (Fine): Very little original crispness evident. It should still exhibit its original brightness but will show much handling and soiling.

VG (Very Good): May be soiled and well worn. All engraved features clear and complete. Margins must be intact.

G (Good): Heavily soiled with no original color or body. May have frayed margins and small tears. Engraved features will be visible but not bold.

This certification service guarantees you the genuineness of the material handled in a Kagin's Auction. **FOR ALL OF THE MATERIAL FEATURED WITH PHOTOGRAPHIC REPRODUCTIONS ABOVE THEIR RESPECTIVE LOT DESCRIPTIONS WE WILL FURNISH ON REQUEST A PNG CERTIFICATE.** We are pleased to provide this service for our customers at no extra charge.

The motto became official by Congress in 1908 under President Taft and the dies were altered so that the motto appeared thereafter. Although "In God We Trust" appeared on all gold coins since 1866 it was optional as the official motto was ***E PLURIBUS UNUM****. Now we have both mottos appearing on our coins.*

Since 1526 after the Turkish conquest of Hungary, Transylvania became a ***de facto*** *independent region under the Magyar princes. However, after the Turkish defeat at Vienna in 1683, its decline became sudden and rapid. The estates opened negotiations with Emperor Leopold and recognized his sovereignty. Michael Apafi II (1690-97) was obliged to abdicate and a confused period of struggle for power ensued until the peace of Szatmar in 1711, when Transylvania lost it's independence to the Emperor.*
